- Case management
- Flexible funding for bridging gaps in the housing system
- Workforce development training
- Homeownership education
- Refugee housing navigation
- Housing translation support

THE STORIES

Equally as compelling as the hard facts, are the many ways in which your investment is changing the lives of individuals and families in our community. Here is one of the critical ways you are helping do just that.

Taking the first step to housing stability

Homeless and discouraged, Dawn faced several challenges as she tried to find safe and stable housing for herself and her two-year-old son. Both mother and son suffered from chronic health conditions, she received minimal family support, and her history as a renter was marred by eviction notices. That all changed when Dawn moved into a local family shelter, began a new job, and connected with a Primary Health Care Housing Navigator. Thanks to this service — funded by the **Stable Steady Strong** initiative — Dawn, after several refusals, found a landlord who understood her unique situation. Additionally, the service's client assistance funds paid her deposit and her first month's rent, which she did not have, and which previously had prevented her from securing a new home. End of story? Not at all! This is just the beginning of a new chapter in Dawn and her son's life.

"With the support of Polk County Housing Trust Fund's **STABLE STEADY STRONG** initiative, Primary Health Care is able to serve even more families and individuals in our community."

Sometimes the biggest barrier facing people experiencing housing instability is just the first month of rent and the deposit. Your investment helps eliminate that barrier quickly, and moves people into safe, stable, and affordable housing, so they can focus on rebuilding their lives.
